The readings also explore paths to greater gender equality, as well as the ways in which men, women, and children both have adapted to and resisted their subordinate position in the global economy. With its rich interdisciplinary perspective, this text will be ideal for courses in sociology, political science, and women's and gender studies.

## A Global Perspective: Gender and Sport | Teaching Resources

Competence in gender perspectives is necessary for the implementation of gender equality strategies - mainstreaming and specific action. The gender perspective looks at the impact of gender on people's opportunities, social roles and interactions. Policies, programs and legislation can reinforce gender stereotypes, systemic discrimination and unequal opportunities for women and men.
