Automatic/Semi-automatic transmissions. Most of Honda's automatic transmissions are unusual in that they do not use planetary gears like nearly all other makers, however, Honda has recently introduced (2017) an all-new, in-house designed 10-speed automatic that uses planetary gears. Honda's older transmissions such as the Hondamatic semi-automatic transmission and its successors use

Usually, the most common cause of a "false neutral" is burnt up clutch packs, which does require a transmission rebuild or replacement. As Honda Civics are fairly common vehicles, a rebuild may cost you between \$800 to \$1,500, and around \$300 to \$500 for a transmission swap.
